## 1. Background:

Bajaj Financial Securities Limited was incorporated, as a wholly owned subsidiary of Bajaj Housing Finance Limited, on 7<sup>th</sup> April 2010 with the main object of undertaking, *inter alia*, stock/share broking business and to act as Depository Participant, within the provisions of Securities and Exchange Board of India Act, 1992 & relevant rules & regulations.

# 2. Summary of Significant Accounting Policies

## Basis of preparation

These Financial Statements have been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention on accrual basis. Pursuant to Section 133 of the Companies Act, 2013 read with rule 7 of the Companies (Accounts) Rules 2014, till the standards of accounting or any addendum thereto are prescribed by the Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under the Companies' Act, 1956 shall continue to apply. Consequently, these Financial Statements have been prepared to comply in all material aspects with the accounting standards notified under Section 211(3C) of the Companies Act, 1956, Companies (Accounting Standards) Rules, 2006, the other relevant provisions of the Companies Act, 2013 and Reserve Bank of India Regulations in relation to Non-Banking Finance Companies to the extent applicable to the Company.

All assets and liabilities have been classified as current or non-current as per the criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of the products and services the time between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of its assets and liabilities.

# A. System of Accounting:

- i) The Company follows the mercantile system of accounting and recognizes income and expenditure on an accrual basis except in case of significant uncertainties.
- ii) Financial Statements are based on historical cost. These costs are not adjusted to reflect the impact of changing value in the purchasing power of money.
- iii) The preparation of Financial Statements in conformity with generally accepted accounting principles requires Management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and disclosure of contingent liabilities as on the date of financial statements. The estimates and assumptions used in the accompanying Financial Statements are based upon Management's evaluation of the relevant facts and circumstances as of the date of the Financial Statements. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

# B. Revenue recognition

- (i) Interest on fixed deposits is recognized when due or accrued.
- (ii) Profit/loss on sale/redemption of investments is recognized on the settlement date.

#### C. Investments

- (i)Investments maturing within twelve months from the date of acquisition and investments made with the specific intention to dispose off within twelve months from the date of acquisition are classified as short-term / current investments and are carried at their cost or market value / net realizable value, whichever is lower. Investments maturing within 3 months from the date of acquisition are classified as cash equivalents if they are readily convertible into cash.
- (ii) Investments other than short-term / current investments are carried at their cost of acquisition. Long-term investments maturing within 12 months from the close of the year (i.e. current maturities) are reclassified as current investments. Provision for diminution in value of investments, if any, is made if, in the opinion of the Management, such diminution is other than temporary.

# D. Fixed assets, Depreciation and Amortization

- (i) Tangible assets are carried at cost of acquisition. Cost of acquisition includes all expenses incurred to bring the asset into a state ready to be put to its intended use.
- (ii) Depreciation on tangible assets

Depreciation is provided on a pro-rata basis for all tangible assets on straight line method over the useful life of assets as determined by the Management by an internal technical assessment.

(iii) Depreciation on addition to assets and assets sold during the year is being provided for on a prorata basis with reference to the month in which such asset is added or sold as the case may be.

(iv)Individual assets / group of similar assets costing less than ₹ 5,000 are depreciated in full in the year of purchase.

# E. Provisions and Contingent liabilities

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

# F. Taxation

- a) Provision for Taxation is made for the current accounting period (reporting period) on the basis of the taxable profits computed in accordance with the Income Tax Act, 1961.
- b) Deferred Tax resulting from timing difference between book profits and taxable profits are accounted for to the extent deferred tax liabilities are expected to crystalise with reasonable certainty. However, in case of deferred tax assets (representing unabsorbed depreciation or carried forward losses) are recognised, if and only if there is virtual certainty that there would be adequate future taxable income against which such deferred tax assets can be realised.
- c) Minimum alternate tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period.
